Black with stainless steel
hanging system

Stainless steel with
stainless steel hanging system

Sleek, sophisticated and surprisingly cosy.

The Cocoon contemporary fireplace is a suspended design piece that incorporates full adjustability in a modern hanging fireplace.

It's easy to install, simple to light, produces no smoke and does not require a flue.

The stainless steel version can be converted into an entertaining drinks server by filling it with ice.

The Stainless Steel Hanging System is 142cm fully extended, adjustable to 6 different heights and can be rotated 360°.

The Black Hanging System is 202.5cm fully extended, adjustable in lengths of 25cm, but 360° rotation is not available.

It can also convert into the Pedestal Cocoon.

Weights and Dimensions

Fuel Capacity: 1.5L Burner

Heat Output: 3 kW/h

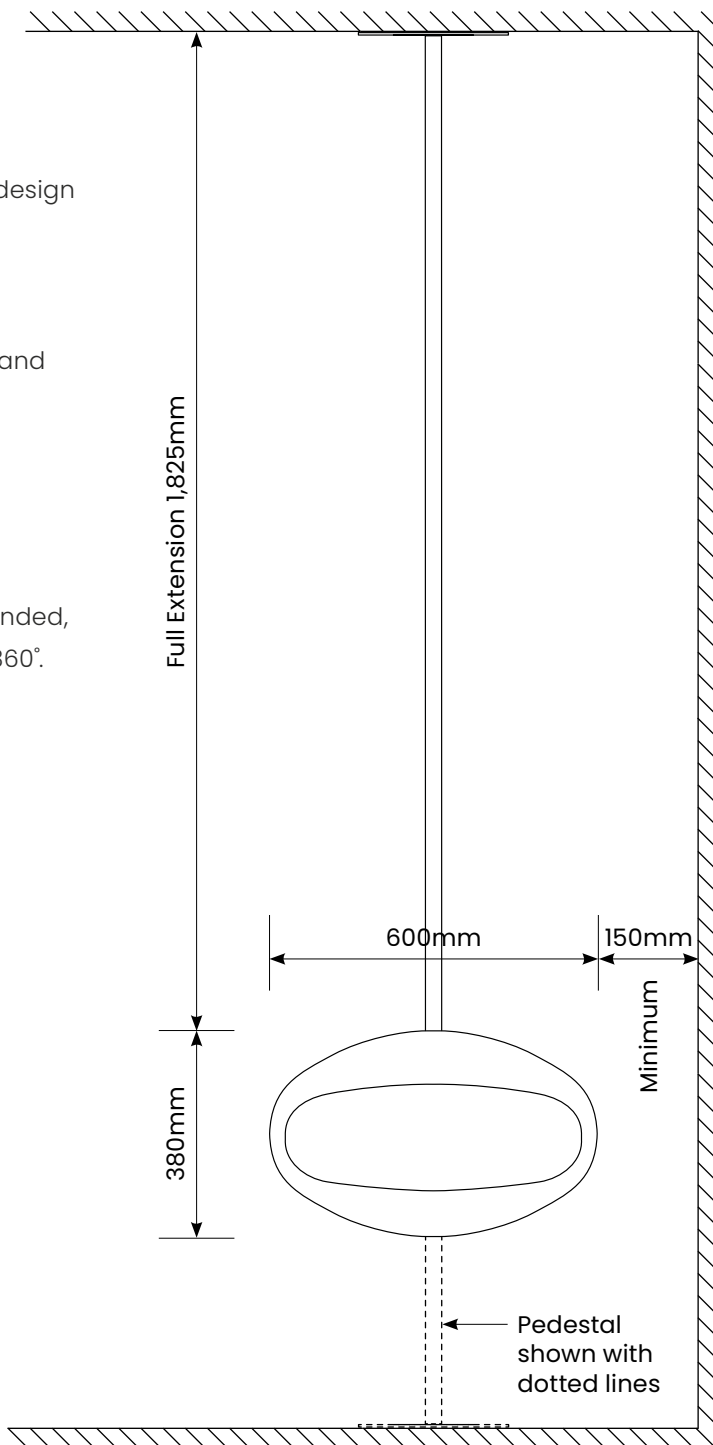

Burning Time: Up to 5 hours

Weight: 13.5kg

Dimensions: 600mm x 380mm

Height positions: 6

Rotation: 360°

As most businesses start, there is a vision.
Ours is to create stunning fireplace solutions that are built to last.

At Naked Flame we have always had a keen interest in design. In particular where form meets function, where great design meets practical use.

Bending and blending the rules of design is what drives us. It drives us to create fires that are not only beautiful but functional too.

All too often the phrase "designer product" carries a hefty price tag, which is not really kiwi, and certainly not us.

That's why we have always strived to make the product quality as high as possible, yet keep the cost as low as possible.

Richard Lee - Founder and designer.
